

```
interface MyLambda
{
    void display(String str);
}
public class LambdaExp10 {

    public LambdaExp10(String str)
    {
        System.out.println(str.toUpperCase());
    }
    public static void main(String[] args) {
        MyLambda ml = LambdaExp10::new;
        ml.display("pranay ramteke");
    }
}
```
